Supplemental Table 2 (continued)

SOURCES: MDRC calculations using data from Westchester Community College (WCC) and the National Student Clearinghouse (NSC).

NOTES: Estimates are adjusted by cohort, intent to enroll full-time at the time of study intake, has children, marital status, intent to work full time, has high school diploma, parents pay more than half of student's expenses, and first person in family to attend college.

Statistical significance levels are indicated as: *** = 1 percent; ** = 5 percent; * = 10 percent.

Outcomes for the spring and summer semesters are combined.

^aOutcomes for the following measures come from both WCC and the NSC. Includes study participants that transferred from WCC to other institutions.

^bOutcomes for the following measures come only from WCC.
